• Quest for constant learning (new technologies & blockchain)
• A real passion for technology and security

Personal Requirements
• Ability to work for and with a team
• Ability to work autonomously and independently
• Excellent problem solving and debugging skill
About Wecan

Wecan is a Swiss based company created in 2015. We co-create, run and scale joint ventures to transform socio-economic paradigms through pioneering blockchain solutions. Wecan offers blockchain software for banking industry. Our products combine the richest end-to-end packaged compliance bank functionality and the most advanced technology, helping our clients go-live faster, giving them the freedom to innovate and deliver personalized experiences. We are technology first, with APIs, we partner with Fintechs in our marketplace. We have been recognized year after year for our award-winning solutions. Wecan is one of the pionneer blockchain Software company.

Our vision

At Wecan, we believe that successful digital technologies are built around people and they are shaped by people’s needs. After an era of exponential digitalization growth, the rise of mobile phones dramatically increased the usage of online service... We believe that the next 10 years will increasingly focus on trust, privacy and security. We believe that blockchain and decentralized infrastructure are a much-needed change to the way digital services have been built up to now. And we firmly believe that it is urgent to start putting those tools at the heart of business models right now.

Why join Wecan?

From your first day, you will actively contribute to Blockchain innovative project using by companies with national and global reach. You will be working on projects to reshape businesses, invent new products, and transform some paradigms using the latest technologies.

Could we spark your interest?
We look forward to receiving your application!
